Subject: Docket Numbers #19-002-R and #19-003-R or "Buffalo National River CAFO Permanent Moratorium."
Date: Monday, September 9, 2019 6:46:27 PM

To whom it may concern:

This message is to lend my whole hearted support to a total moratorium on hog farms in the Buffalo River watershed. In fact, I would like to see a moratorium at any site that might affect any of our waterways. In any case, I thank any and all who were involved in the removal of the current hog farm above the Buffalo and have fought for oversight to prevent the degradation of our state waters
